

JOYSER

ULTIMATE DESIGN.

Who we are:

We are human. They are animals. Legacy has put us on the same planet, so that we learn from each other, learn how to speak the same language and how to become the best friends.

Joyser is a brotherhood of like-minded people from different places who are daily inspired by the unconditional love, coming from our pals and the care, that they surround us. And we want to return the favor. Joyser is designed to ensure that you and your best friend can always ride the same Wave. We want to create things that not only bring the Joy, but at the same time using the latest techs and developments of best human being goods. Making you and your Pets sharing the same spirit in any, even the most remote corners of the Globe, is not only our goal, but our motivation and passion. Breaking the rules, breaking the borders, breaking ourselves to create absolutely new level of relations between You and Your buds.

— Because they depend on us same way we depend on them.

TPR Rubber

Joyser Slimmy was designed for the dogs that like to play with the toys that imitate real animals, but help to avoid stuffing mess. Rubber toy core is strong enough to survive many hours of play and you can always replace or fully remove tennis/foam ball, which main function is to attract with squeaking sound.

Memory Foam is sensitive to body temperature and molds itself to support dog's body contours. It improves circulation and reduces spinal pressure.

Convenient zipper allows you to easily remove the case to wash it. A special pocket to hide the clasp.
